A Strategic Research Agenda

An input to the Horizon 2020 Work Programmes and Calls 2018–2020
April 2016

3 sections

- 8 reasons why mountains are important at the European scale
- 6 recommendations for activities on mountain topics within Horizon 2020
- 6 sets of proposals for interdisciplinary research in mountains for future Horizon 2020 calls
 - structured according to the Societal Challenges
 - each with a specific rationale

Proposals for interdisciplinary research in mountains

- Health, demographic change and well-being
- Food security, sustainable agriculture and forestry
- Secure, clean and efficient energy
- Smart, green and integrated transport
- Climate action, environment, resource efficiency and raw materials
- Europe in a changing world
