

A NEW STORY OF RESILIENCE?

Webinar • 1 October 2020 • 14:00 – 15:45

AGRICOLTORI ITALIANI

Euromontana will organise its XII European Mountain Convention on “Smart mountains: how to make our territories attractive and future-oriented?” in the Natural Park & Biosphere Reserve of Sila, Italy in September 2021. This 3-Day event will aim at defining a sustainable strategy for the development of smart mountains towards 2050.

In view of this event, Euromontana is launching a series of webinars to feed the reflection and showcase good initiatives, but also foresight analysis for our collective future. The first webinar will address the issue of resilience in post COVID-19 times. How did mountains cope with the crisis? What were the solutions implemented in territories? How to sustain innovations for smarter mountains?

14:00 – 14:05

Introduction: resilience is also adaptation, from a physical conference to a series of webinars

Juanan Gutierrez, President of Euromontana

14:05 – 14:10

Welcome words and invitation to the European Mountain Convention on Smart Mountains, in Sila Natural Park and Biosphere reserve

Mario Grillo, CIA Agricoltori Italiani

14:10 – 15:00

Panel: resilience experiences for smarter mountains

Moderated by Enrico Camanni, journalist, writer and alpinist

- Resilience experiences from the Smart Village project
- Local shops as social places and services providers
- Transition and adaptation to e-commerce
- Enhancing food resilience in communities

Gianluca Lentini, Researcher at Poliedra

Mauro Carena, Mayor of Moncenisio

Adele Ravasio, Valtaleggio Stachitunt consortium

Devis Bonanni, “L’Orto di Vicinato”

15:00 – 15:10

What vision for our mountains in 2050? How to increase mountains resilience?

Herbert Dorfmann, Member of the European Parliament

15:10 – 15:45

Discussion with the audience

Interpretation will be provided in EN and IT
