

mountain.TRIP

Mountain Sustainability: Transforming Research into Practice

The goal of mountain.TRIP

Our goal is to provide stakeholders, end-users and decision makers with readily accessible and understandable forms of research-based information relevant to sustainable development in mountain regions.

What we do

- Identify end users at European and regional level
- Identify relevant projects from the CORDIS database
- Organise two rounds of workshops with scientists and practitioners in Belgium, Austria, Poland, Spain and Romania
- Build a social network: mountain.TRIP community
- Develop innovative dissemination instruments: videos, podcasts, library of documents, teaching tools and manuals
- Initiate an ongoing dialogue between research and practice

What you can do

- Join the mountain.TRIP online community
- Tell us about relevant projects
- Participate in our online survey to identify practitioners' information needs
- Participate in a practitioners' workshop

Our Team

Science and basic research

Institute of Mountain Research: Man & Environment (IGF), ÖAW, Innsbruck, Austria
Centre for Mountain Studies, Perth College UHI, UKI
Institute of Geography and Spatial Management, Jagellonian University, Krakow, Poland
